

AI PARIS AWARDS 2019

CONTEST RULES

GOALS

The AI PARIS AWARDS 2019 will aim to determine the most efficient and innovative artificial intelligence project, and the most honourable in terms of common good among about thirty candidates.

The objective is to highlight the diversity and quality of the projects carried out in the field of AI and to reward and promote the most audacious, the most original, and above all the most innovative from an economic, technological and societal point of view, and also to reward the most digital-for-common-good oriented one.

AWARD

The lucky winner will be awarded an AI PARIS AWARDS Trophy as well as a place in the AI PARIS 2020 Start-Up Village, and an AI FOR GOOD Distinction Trophy by the second winner.

The jury will select 3 finalists competing for the AI PARIS AWARD, according to the criteria defined below, who will participate in the Battles organised on the podium of the AI PARIS exhibition on Wednesday 12 June 2019. Each finalist will have 5 minutes to present their project and convince. The winner will be chosen by the participants of the exhibition, who will vote electronically between the Battles finalists ("live voting"). The AI FOR GOOD winner will be selected by the jury and will not have to compete in a Battle.

The awards ceremony will take place on Wednesday, June 12, 2019 on the stage of the AI PARIS Exhibition after the Battles.

CANDIDATES

The AI PARIS AWARDS 2019 are aimed at all start-ups that have conducted or are conducting artificial intelligence experiments, provided that it is a customer project or application that is highlighted. For the same project, it is even better to mention all the partners, but identify a project leader.

JURY

In order to evaluate the applications, a jury of experts in artificial intelligence will meet at the end of May to select the finalists.

If members of the jury are representatives of a candidate company or organization, they will automatically be declared abstentionists on the rating of the project in question.

EVALUATION CRITERIA

In order to accurately evaluate the projects, they will be rated according to previously established criteria, including:

AI PARIS AWARD:

- Innovation
- Consumer advantage, interest for the ecosystem and the IA chain
- Project maturity status
- Economic performance
- Operational performance

AI FOR GOOD:

- Innovation
- Consumer advantage, interest for the ecosystem and the IA chain
- Project maturity status
- Economic performance
- Operational performance
- Societal characteristic and common good orientation of the project

ROLLING

The application form will be available on the event's website from **Monday, April 15, 2019.**

Full applications can be received until Wednesday, May 15, 2019 at midnight.

No applications received after this date will be considered.

APPLICATION DOCUMENTS

In order to apply for the AI PARIS AWARDS 2019, candidates must complete the forms available via the link: <https://aiparis.fr/awards/inscription.php> before **Wednesday, May 15, 2019 at midnight.**
